F. S Business Corporation Ltd

House # 12, Flat # 5/B, Road # 04, Sector # 01, Uttara-1230, Dhaka

Subject: Application for the Position of IT Engineer

Dear Sir,

I am writing to apply for the IT Engineer position at F. S Business Corporation Ltd as advertised on Bdjobs.com on 23 September 2026. I am completing my BSc in Computer Science and Engineering (CSE) from AIUB with a CGPA of 3.94, and I look forward to starting my career in network management and video surveillance solutions at your company.

Through my academic projects and lab work, I have developed strong skills in network configuration, hardware and software installation, and system troubleshooting. I also have practical experience in AI and Computer Vision (CVPR), which will help me to set up and maintain your CCTV, Video Surveillance, Access Control, and PABX systems. In addition, I regularly use Microsoft Word to write assignments, research papers, and technical documentation, while using Microsoft Excel to organize data, track metrics, and manage project records. Alongside academic projects, my 4-year active involvement in AIUB's cricket and football teams serves as concrete evidence of my teamwork, discipline, and ability to collaborate effectively in group environments. I am confident that my technical knowledge, analytical mindset, and dedication to learning will allow me to contribute effectively to your IT team.

I have attached my CV and submitted my Video CV for your review and would appreciate the opportunity to discuss my application further in an interview. I can be contacted at 01791842989 or by email at your convenience.

Thank you for your time and consideration.

Kind regards,

Mohammad Ali Masud
