Career Objective

Computer Science and Engineering undergraduate with a strong foundation in network configuration, hardware-software troubleshooting, database management, and software development. Seeking an entry-level IT Engineer position at F. S Business Corporation Ltd where I can apply my Cisco-certified IT infrastructure skills, maintain video surveillance and access control systems, and contribute to reliable technology solutions in a professional environment.

Education

- **Bachelor of Science in Computer Science and Engineering** – American International University-Bangladesh (AIUB) – 2022–2026 – CGPA: 3.94/4.00
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming (Java, C#, C++), Advanced Database Management Systems (Oracle, MySQL, PL/SQL), Web Development, Computer Networks, Deep Learning, Statistical Data Analysis, Computer Vision and Pattern Recognition (CVPR), Computer Graphics Design, Computer-Aided Design (AutoCAD), Assembly Language
- **Higher Secondary Certificate (HSC)** – Rangpur Chamber of Commerce and Industries Public School and College – 2019 – 2021 – GPA: 5.00/5.00
- **Secondary School Certificate (SSC)** – Chilahati Merchants High School – 2019 – GPA: 4.73/5.00

Work Experience

Physics Instructor – Progoti Academy, Gulshan, Dhaka, Bangladesh (Hybrid) | November 2024 – Present

- Conducted engaging physics classes and interactive problem-solving sessions for Class 9 and Class 10 students, breaking down complex scientific concepts into easily understandable lessons.
- Demonstrated strong communication, time management, and interpersonal skills while coordinating with students and academic staff in a hybrid learning environment.

Skills

- **Programming Languages:** C#, C++, Java, Python, R (Programming Language), PHP, Assembly Language, SQL, Linux
- **Web Technologies:** HTML, Cascading Style Sheets (CSS), PHP, JavaScript
- **Database**: Oracle Database, PL/SQL, MySQL, Microsoft SQL Server
- **AI, Data & Design:** Deep Learning, Statistical Data Analysis, Computer Vision (CVPR), AutoCAD, Computer-Aided Design (CAD), Computer Graphics Design
- **IT Infrastructure & Networking:** LAN Operation & Configuration, Cloud Connectivity, PC Building, Hardware Repair & Upgrade, Windows/Linux/OS X/Mobile OS Troubleshooting, CCTV & Video Surveillance Setup, Access Control & PABX Support, Printer Sharing, Host/Data/Network Security
- **Tools & Technologies:** Cisco Packet Tracer, Git, GitHub, Visual Studio, Visual Studio Code, AutoCAD, RStudio, Microsoft Excel, Microsoft PowerPoint, Microsoft Word
- **Other Skills:** Data Structures, Algorithms, Object-Oriented Programming, Problem Solving, Software Testing, Preventive Maintenance & Diagnostic Troubleshooting

Languages

- English: Fluent
- Bangla: Native
- Hindi: Fluent (Spoken)
- Urdu: Fluent (Spoken)

Certifications

- IT Essentials (Certificate of Course Completion) – Cisco Networking Academy, American International University-Bangladesh (9 Aug 2023)
    - Verified Competencies: PC component selection & installation, safe lab procedures, preventive maintenance, Windows/OS X/Linux/Mobile OS configuration & troubleshooting, LAN & Cloud device configuration, printer installation/sharing, and basic host, data, and network security**.**

Projects

Delivery Management System (C# Desktop Application)

Repository: github.com/masud-ali/Delivery-Management-System_cSharp-Project

- Developed a desktop-based delivery and logistics management system using C# (.NET Windows Forms) and SQL database.
- Implemented multi-role user authentication (Admin, Delivery Agent, Customer), order tracking, billing automation, and real-time delivery status management features.

Database Management System Project (DBMS)

Repository: github.com/masud-ali/DATA-BASE_PROJECT

- Designed and implemented a relational database management system using Oracle Database and MySQL with normalized schemas, ER modeling, and role-based access control.
- Created complex SQL queries, PL/SQL stored procedures, and automated triggers to ensure data integrity and fast query execution.

Wabtec Web Management Application

Repository: github.com/masud-ali/Wabtec-project

- Created a responsive web application using HTML, Cascading Style Sheets (CSS), PHP, and MySQL to manage user workflows and operational records.

- Implemented secure user authentication, dynamic dashboard interfaces, and backend database integration.

Research & Publications

Predicting Emergence from Post-Traumatic Amnesia Within Inpatient Rehabilitation: How Much Is Recovery and How Much Is Discharge Timing?

- **Authors: Mohammad Ali Masud** (First Author), Md. Mahabubur Rahaman Siam, Sanjida Afrin Bristi, Abdullah Al Shaihid Mahem, and Sharfuddin Mahmood.
- **Publication Venue & Status:** Accepted as a Full Research Paper at the **IEEE CSDE 2026** Conference (To be published in **IEEE Xplore**).

Co-curricular Activities

- **Active Team Member, AIUB Official Cricket & Football Teams (2022–2026):** Represented American International University-Bangladesh in inter-university and intra-university sports tournaments for 4 consecutive years, demonstrating strong teamwork, leadership, discipline, and collaboration under pressure.
- **Participant, University Programming Contests & Tech Showcases:** Participated in academic project exhibitions and collaborative engineering problem-solving sessions to develop practical software and networking solutions.
